

I am writing to urge you not to replace K-LOVE with an LPFM. K-LOVE is the best station for my family and I to listen to in the car. No other radio station in the Cincinnati area offers continuous music and family values. When I listen to K-LOVE with my children in the car, I can be certain that they will not hear anything inappropriate. I feel that if the Cincinnati community were not able to be able to listen to this station, children and families in this city would not have any safe listening alternatives. The effects of inappropriate matter on the airwaves on children is horrifying. This world has too many obscene things on TV and radio and I would like Cincinnati to continue to have the family-friendly alternative of K-LOVE. Thank you so much for your consideration of not replacing K-LOVE with a LPFM.
